

bobike[®]

bicycle safety seats

*Simply
Safe*

We move the future!

Exploring the world on a bike can be a fun and healthy adventure, especially when shared with your child. You can feel the wind in your hair and the sun on your face while ensuring your baby's safety and security with a double-walled Bobike bicycle safety seat.

Enjoy the ride and make memories that will last a lifetime.

Simply Safe

about bobike

explore the world safely

*Are you ready
to start exploring?*

Bobike has a fast collection of products to support cycling commuting adventures safely in style and introduce your children to a happy and healthy lifestyle in a fun and playful manner.

Bobike's bicycle safety seats are designed in the Netherlands, produced in Europe, and can be recognized for their stylish, modern look. Bobike's safety seats are in the market for more than 35 years and have won several awards, including an iF Design Award, and recently the EQTM (European Quality Trademark) recognition.

Unmistakably Bobike

When you use a product that often, we believe it should look damn good.

That's why the Bobike collection is continuously updated. Our designers have a passion for fashion and interior design. They closely follow trends to make sure our safety seats perfectly match the bikes currently on the market. This shows in the colours we use and in the details, you find in our safety seats which make them unmistakably Bobike.

we take safety seriously

at bobike, we live and breathe safety

in accordance with
EN14344:2022

It might not be the coolest thing to do, but you'll appreciate us for it. Quality control, performance analysis, and safety tests are the most important parts of product development.

Of course, we comply with all legal requirements and meet the highest industry standards, but we don't stop there.

We have built our own modern quality control center with all the technology required to ensure that our products comply with the standards imposed by regulatory bodies.

*But when we test, we
double the standard.*

It's how we roll.

Bobike safety seats are recognized with the EQTM label.

EQTM recognition was issued by the European Organization for Quality, which is one of the most reputable quality organizations in Europe.

The process of obtaining EQTM was professionally managed and controlled by an EQTM Committee.

EQTM could be obtained only for products of European origin, and manufactured by companies that are able to continually sustain the agreed quality.

Although Bobike offers several different models of safety seats, our focus when designing a seat is always the safety of the child that will be transported.

That's why every single Bobike model features a double-walled construction.

A double-walled construction consists of two sturdy walls.

The outer-wall that is in contact with the child's back, is slightly softer to ensure a comfortable ride. The inner-wall is more sturdy and rigid and is designed in order to create a void between the two walls and therefore the child.

If the seat gets impacted, it won't touch the child.

We often talk about double-walled safety, **a feature that is unique and exclusive of Bobike**, and hopefully, now you understand what we mean. But if you care as much about your child's safety as we do, you only need to remember one thing; Bobike.

For more information on double-walled safety, visit:

<https://Bobike.com/en/page/we-take-safety-serious>

we care about the future

sustainable development goals

The ONU Sustainable Development Goals are a call for action by all countries, and for all brands. Bobike makes part of this global movement and has some real frameworks in Goals 10,12 and 13.

Curious?

*We all have a huge role
to play if we want a
sustainable world.*

Year after year, we focus on reducing our ecological footprint.

-16%
in waste

-21%
in electricity

Taking the “right” steps

GOAL 12 - RESPONSIBLE CONSUMPTION AND PRODUCTION
Less environmental impact in Bobike 2022 production.

Green packaging

We are renewing the entire brand packaging, making it even more sustainable and efficient by reducing to the most disposable materials (adhesive tape, plastic bags, cardboard...). We've started in the One® by removing an average of 250g disposable items per seat. Seems like nothing, but if you do the math, in 1000 seats we saved 250kg of disposable materials.

Bobike packaging is 100% recyclable and reusable, so we are encouraging our customers to give Bobike packaging a second life. Bobike is using certified paper of sustainable origin (FSC®) and reducing printable areas by using less ink.

One® bee friend

Did you know that the livelihood of bees is endangered? Bees play a crucial role in agriculture everywhere and represent an irreplaceable link in food production. Bees help produce more than 30 percent of the world's food.

Alarmed by this news and inspired by the colour of our Bobike One® mighty mustard, we decided to donate a part of the proceedings of every mighty mustard seat sold, to an organization that helps preserve bees.

Bio-Based materials

Our aim is to continue to come up with the best solutions to develop products made from bio-based materials.

The Bobike Sleep Roll is made with 50% sugarcane - a bio-based material - which is the main source of sugar in the world and is also important in the production of renewable energy and bio-based materials. It captures and fixes CO₂ from the atmosphere at each annual growth cycle. Sugarcane cultivation is naturally irrigated by the rains in the producing regions and measures are implemented to ensure that its cultivation does not threaten the main areas of biodiversity.

Recycled Materials

Through recycling technology, we were able to transform bicycle seat parts that are rejected in the mass production process into new recycled material and incorporate it into the production of new seats in non-structural components.

ColorADD

the color alphabet

“Reducing inequalities and ensuring no one is left behind are integral to achieving the Sustainable Development Goals.”

United Nations

This framework lead Bobike to join the ColorAdd project so that our colours can be seen by everyone. It's estimated that are 350 MILLION ColorBLIND WORLDWIDE. So now one you will find this alphabet in our products labels.

How it works

ColorADD is a unique, universal, inclusive, and non-discriminative language that enables the colourblind to identify colours, with a wide spectrum of use on companies/entities whenever colour is a factor of identification, orientation or choice.

Because, colour is for everyone!

90% of all information in the world uses colour to communicate.

1 in 12 male are colourblind.

1 in 200 female are colourblind.

90% of the colour blind needs help buying products.

41% feel some difficulty in socially integrating.

Go® Maxi spare parts

to replace a lost or damaged part of your Bobike Go® maxi seat

Safety Frame Holder

The ideal spare part if you want to use the Bobike Go® maxi frame mount on two different bicycles. Ideal for commuting. Fits frames from Ø28 to 40 mm. Requires 105mm mounting space on the seat tube to be installed. Fits round tubes, and was designed to accommodate the brake cable, preventing it from being pinched. Inside, a rubber pad will also prevent the frame from getting damaged. Tools included.

Ref. 8015300194

Maxi Combination Lock

Extra security and protection for your Bobike seat, now available as a spare part. The combination lock is easy to install and fits through the little hole in the bottom part of your Bobike Go® rear seat. Length - 85 cm.

Ref. 8015300206

Footrests

Replacement footrests for the Bobike Go® maxi. Sold per set, including straps.

Ref. 8015300175

new

Footrest Straps

Replacement footrest strap for the Bobike Go® maxi. Sold per set.

Ref. 8015300338

Safety Belt

Replacement safety belt for the Bobike Go® maxi. Safety buckle that can be operated with one hand, is included. No tools needed.

Ref. 8015300195

Cushion

Replacement cushion for the Bobike Go® maxi. Waterproof and comfortable.

Ref. 8015300196

Metal Mounting Bar for frame

Replacement Metal Mounting Bar for your Go® frame's seat. This Metal Mounting Bar also fits in the same frame holder used to mount the Go® frame's seat. This Metal Mounting Bar complies with the EN14344:2022 safety standards and is suitable for 26" to 28" bikes.

Ref. 8015300213

Metal Mounting Bar for Small Frames and 29ers

The ideal solution for bikes with small frames or 29" wheels.

This bar pushes the seat up and back to be placed in a position that will not touch the wheel, after adding the child weight. Only available as a spare part for Go® frames. If you want to use the seat in other 29" bicycle you also need an extra frame holder. If not, you can use the original frame holder included on the Go® Frames.

Ref. 8015300218

Go[®] helmets

safety helmets xxs, xs & s

Offer your baby extra protection with a helmet that matches the Go[®] safety seats perfectly. The Go[®] helmet features several vents (xxs-6 vents/xs and s-9 vents) to keep your baby's head cool and a bug net that provides protection against flying insects.

The Easy-Lock system lets you easily adjust the helmet to the correct size and the reflective safety decals ensure that your baby is visible when it is dark out. Regulation (EU) 2016/425 & EN1078:2012 + A1:2012.

One®

The colorful collection

One® Eco

The optimal balance between safety and environmental responsibility.

The entire bobike One® range is greener.

Without compromising safety and keeping the same standards, all Bobike One® coloured back covers are now made from 100% recycled material and are 100% recyclable.

But with the goal of turning the One® more sustainable we've launched the bobike One® Eco model which incorporates 30% of recycled material in the exterior shell, creating a unique seat. No two One® Eco seats are the same.

The full production process was also revised to reduce the CO₂ emissions during the One® production.

RESTYLING!

The One now comes equipped with an updated, chic (and secure) harness system adorned with the distinctive Bobike Logo. Additionally, ON THE Maxi versions, the Easy Mount System has been enhanced to ensure greater safety. The vibrant collection introduces a striking new color - Citadel Blue. These added features enhance both the style and safety of the One!

One® mighty mustard

For each seat sold in the mighty mustard colour, we give a percentage for Worldwide Bee Saving ONG. That's just another way to help preserving the environment.

One® Eco

One® Eco

front and rear bicycle safety seat

Bobike One® Eco, the best compromise between your child's safety and the protection of the environment.

Through recycling technology, we are able to transform bicycle seats that are rejected in the production process into new recycled material and incorporate it into the production of new seats. The back covers (a non-structural component) are currently produced with 100% recycled material, and are 100% recyclable. The bobike One® Eco also has the particularity that the outer shell (a non-structural component) is produced with 30% recycled material, which gives it that unique marbled look and no two eco seats are the same. The best compromise achieved between sustainability and safety.

Our commitment to Planet Earth is to combine sustainability with technology to increase the amount of recycled material, always ensuring safety.

One® junior

One® junior

rear bicycle safety seat for carrier mount

The One® Junior bike seat prioritizes mobility and safe transportation for older children with its game-changing foldable design. Weighing only 1.8kg, it is designed for children aged approximately 6 to 10 years old, up to 35kg, and fits any bike with a luggage carrier up to 38kg.

Its foldable strong back support and retractable footrests make it easy to store, even in tight spaces like train stations. When folded, it has a thickness of only 10cm, making it convenient for men who throw their leg over the back of the bike to get on.

The One® Junior is unique on the market for including wheel and foot protection, promoting a safe ride for older kids, along with a safety lap belt and back reflector. The rubberish waterproof TPE cushion offers all the grip necessary for a stable ride.

The Bobike Exclusive Tour Plus is the ideal selection for parents who enjoy outdoor activities with their children. The Tour model features an adjustable head protection expanded shell, perfect for extended rides and e-bike tours, offering an additional 10 cm of coverage.

The Carrier version is equipped with the EASY mount system, ensuring quick installation, easy interchangeability between bikes, and adaptable positioning for various carriers and child sizes. It is exclusively compatible with carriers adhering to ISO11243:2016 standards.

The Frame variant prioritizes simplicity, directly attaching to the mounting bar, resulting in a lighter seat that effortlessly fits on both round seat tubes and bikes, regardless of the presence of a carrier.

bobike accessories

for your bobike safety seats

From a rain cover to keep your seat dry, to a winter cover to keep your little one warm, discover the full collection of accessories we offer you to keep your baby cozy, comfortable, and safe while exploring the world, no matter the weather or the brand of your bicycle.

For our accessories, we only use materials of the highest quality, just like we do for our safety seats.

*So, no more excuses
to start exploring, no
matter the weather!*

a-head adapter plus

for bikes with 1" 1/8 stems

The Bobike A-Head Adapter Plus allows bobike front seats to be installed on a-head stems with limited mounting space. With this a-head set, the required installation space is only 4mm / 0.16".

Making the world of child seats a little more accessible to everyone, and reaching the most compatibility possible between bicycle manufacturers and Bobike front seats, we have developed this A-Head Adapter Plus, a sturdy slim bracket that you to mount your Bobike front seat to bikes with threadless stems.

The A-Head Adapter Plus is designed to accommodate adjustable stems, e-bikes with a monitor or controller at the top of the stem, and MTB with 1" 1/8 stems.

Compatible with all bobike front seats with front head tube mounting system.

This A-Head Adapter Plus allows you to easily mount your bobike front seat with a Bobike windscreen.

Winter Cover

multifunctional thermal child and seat cover to keep your baby warm and dry

by **TUCANO**urbano

The weather should never be a reason for you not to use your bike. In order to make your daily commute as comfortable as possible, no matter the weather, we partnered up with Tucano Urbano to create the softest, warmest Winter Cover.

The Bobike Winter Cover has a thermal fleece lining, is completely wind- and waterproof, and has a stowaway hood for your child that offers plenty of space to wear over a helmet. Reflective details ensure that you and your child are extra visible in the darker days of the year.

Bobike Winter Cover can double as a rain cover for the seat when the child is not using it.

Kids Bottles

water bottles for kids

Bobike has a new collection of kids' water bottles to keep your kid hydrated while playing or riding. These new bottles feature a "shaker" tip type, that will promote the drinking independence of your children since they resemble the grown-up utility bottles. Covering the water flow channel will also increase the cleanness of the drinking contact zone. The tip was designed to provide a regular hi-flow of liquid and to easily be used by tiny hands. All Bobike water bottles are BPA-free. The new bottles comply with the food contact regulation 10/2011.

transport & mobility

other ways to move with bobike

Bobike has an extensive collection of products to support your adventures safely and in style and to introduce your children in a fun way to a happy and healthy lifestyle.

Above all, we promote cycling mobility as a way of life, and a greater means of transport, so we add to our collection some exclusive accessories to help you and your little ones to move in style.

*Keep moving.
The world is waiting
for you.*

bobike trailer *2 in 1*

for 1 or 2 kids, or cargo

The Bobike trailer is a lightweight 2-in-1 trailer and stroller that is specifically designed for families with an active lifestyle.

With the Bobike bicycle trailer you get the most out of your active lifestyle. You can share it with your children, no matter the season or your destination.

for biking

With the Bobike trailer, no matter the season or the destination, your daily commuting has been made easier with this lightweight, and easy-to-use trailer.

You can easily couple the trailer to your bicycle and tackle with 1 or 2 kids plus a small cargo on the back trunk (max. 44kg).

If you are riding and need extra space to transport additional cargo (max. 25kg), you can easily fold the kids' seat and get a bigger area for cargo transport.

for strolling

The Bobike Trailer comes with all the necessary accessories to easily transform your trailer into a stroller.

The stroller features a soft-touch handlebar adjustable in 4 positions, making your tour even more pleasant. On the inside, you will find a wide cockpit with extra pockets for small items, along with a protective foot mat and a comfortable seat, and a 5-point retention system for 1 or 2 kids.

bobike trailer

2 in 1

bobike trailer

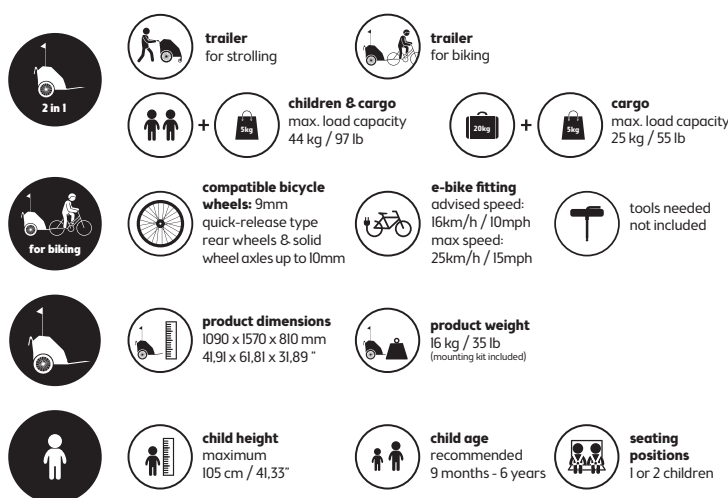

multifunctional bicycle trailer & stroller for 1 or 2 kids

The Bobike Trailer is a multifunctional bicycle trailer that can be used as a bicycle trailer or a stroller. To use it as a trailer just connect it to the bicycle wheel with the provided mounting system.

Bobike Trailer can comfortably carry one or two children inside.

The head protection, the net, the soft cushion, and 5-point safety harness system will keep children comfortable and safe during the ride.

Easily go for a walk with your children in the Stroller mode. You just need to retract the front metal bar, adjust the handlebar, and install the front wheel. In just a few seconds, without needing any tools you're ready to go. It can also be used as cargo transport to carry your sports equipment or shopping bags.

safety

4 high visibility reflective devices on the front, sides and back.
Reflective stripes all around the trailer.
20" wheels with a reflective line.
Safety flag included for better visibility on the road.
Top screen for better children control.
Adjustable 5-point harness system for carrying comfortably 1 or 2 kids.
Parking brake integrated.
Safety wrist strap for strolling.

comfort

Water-resistant fabric.
2 layers on the front - rain cover and protection mesh against insects.
Panoramic view from the inside with large side and front screens providing a good experience for the child.
Ergonomic design for helmet use - mandatory for the biking version.
Vented top window for better airflow.

Elastic strap to store front cover layers when not in use.

Comfortable and washable interior with soft padding.
Removable rubber floor - easy to clean.
Incorporated suspension adjustable in 2 modes (softer/harder) to make the ride smoother.
Adjustable soft-touch handlebar in 4 positions for stroller mode.
Easy trailer/stroller and kids/cargo conversion without the need for tools.

other features

Easily foldable for storage or transportation.
Compatible with 9mm quick-release wheels and solid axles (up to 10mm).
Stroller - easy to convert into cargo trailer.
Extra Luggage compartment in the back.
3 inside pockets - 2 on front and 1 on the back.
According to EN 15918 and EN 1888.
This product is sold in an individual box.
